

Jiyeon Son

010-7178-0410 | daisy7@kaist.ac.kr

Education

Korea Advanced Institute of Science and Technology (KAIST)

M.S. in School of Computing

Sep. 2025 – Present

Hanyang University

B.S. in Division of materials science and engineering

Mar. 2020 – Aug. 2025

- GPA : 4.02 / 4.5

Korea Digital Media High School

Hacking Defense

Mar. 2017 – Feb. 2020

Internships

POSTECH Institute of Artificial Intelligence - Voice Lab

Research Intern

Jan. 2025 – Feb. 2025

- Implemented an automated noise detection pipeline improving data quality for voice models.
- Researched text-to-speaker embedding models, focusing on extracting speaker embeddings that match a given text input for voice conversion tasks.
- Conducted research on diffusion-based Voice Conversion and Vocoder models.

Project Experience

VR-Based Immersive Disaster Evacuation Training

Leader

Dec. 2024 – Dec. 2024

- Built a VR-based evacuation simulation using the A* algorithm for optimal route guidance.
- Implemented an NLP-powered agent leveraging ChatGPT-4 via prompt engineering for real-time user interaction.
- Applied reinforcement learning (SAC algorithm) to train AI agents for realistic crowd behavior in evacuation scenarios.

Customer Retention & Revenue Growth Strategy for a Supermarket

Leader

Oct. 2024 – Nov. 2024

- Analyzed purchasing patterns to design churn-reduction and sales-uplift strategies.
- Performed RFM analysis for customer segmentation and personalized marketing.
- Developed predictive models (Random Forest, XGBoost) to identify potential churn customers.
- Built a collaborative-filtering recommendation model for personalized product suggestions.

Bug Report Meta-Field Enhancement for Developer Recommendation

Team Member

Apr. 2017 – Nov. 2017

- As a high school student, collaborated with graduate and undergraduate students to enhance bug report classification using multi-label prediction.
- Processed and cleaned data by handling duplicates, missing values, and inconsistencies.
- Applied TF-IDF to extract key terms from bug reports and convert them into structured inputs for modeling.
- Research efforts resulted in a Grand Prize from the Ministry of Science and ICT.

Awards

Awards

Dec. 2024 **Outstanding Academic Excellence Award, POSCO AI & Big Data Academy**

(POSCO Group University President's Award, POSTECH President's Award)

Dec. 2024 **Project Excellence Award, POSCO AI & Big Data Academy**

(POSCO Group University President's Award, POSTECH President's Award)

Dec. 2017 **Grand Prize, Women Graduate Students Engineering Research Team Support Program**

(Korea Center for Women in Science, Engineering, and Technology (WISET), Ministry of Science and ICT)

Nov. 2017 **4th Place, National Female High School Programming Contest**

(Ewha Womans Univ. ELTEC Engineering College, Huawei Korea)

Oct. 2016 **Bronze Award, Korea Olympiad in Informatics (KOI) - National Contest (Middle School Division)**

(Ministry of Science and ICT)

Jun. 2013 **Bronze Award, 10th National Informatics Science Competition (C Programming, Elementary Division)**

(Korea Information Science Promotion Association, Sungkyul Univ. College of Engineering)

May. 2013 **Bronze Award, Korea Olympiad in Informatics (KOI) - Regional Contest (Gyeonggi-do, Elementary Division)**

(Ministry of Science and ICT)

Teaching

Creative Computing for Engineers Tutoring

Tutor

Spring 2023

- Provided tutoring for students in the Creative Computing for Engineers Program.
- Guided students in algorithmic problem-solving and Python programming concepts.

Skills

Programming Python, C

Deep Learning PyTorch

Data Analysis NumPy, Matplotlib

Others

English TOEIC 855, Sep 2024

Certification ADsP (Advanced Data Analytics Semi-Professional), Sep 2024
